MATURITAS

Maturitas 18 (1994) 247–249

Subject index volume 18

Adolescence, primary amenorrhea, hormone replacement therapy, transdermal estrogen therapy, juvenile osteoporosis, lipid metabolism, bone mineral density, 105
Aging, skin, collagen, bone mass, bone absorptiometry, menopause, 199
Aging, testoterone, inhibin, LH, FSH, 143

Bleeding pattern, menopause, oestrogen, progestogen, transdermal oestradiol, endometrium, 115
Bone absorptiometry, skin, collagen, bone mass, aging, menopause, 199
Bone density, osteopenia, premenopause, oligomenorrhea, osteoporosis, 191
Bone loss, salmon calcitonin suppository, oophorectomized women, 73
Bone mass, quantified peripheral computed tomodensitometry, postmenopausal bone loss, cortical and trabecular bone, 183
Bone mass, skin, collagen, bone absorptiometry, aging, menopause, 199
Bone mineral density, primary amenorrhea, hormone replacement therapy, adolescence, transdermal estrogen therapy, juvenile osteoporosis, lipid metabolism, 105
Bone resorption, hydroxylysylpyridinoline, lysylpyridinoline, oophorectomized women, estrogen replacement therapy, 135

Cholesterol, postmenopausal, estradiol, norgestrel, triglycerides, endometrium, 207
Climacteric symptoms, menopause, 175
Coagulation, oestrogen replacement, transdermal, haemostasis, menopause, 55
Collagen, skin, bone mass, bone absorptiometry, aging, menopause, 199
Cortical and trabecular bone, quantified peripheral computed tomodensitometry, bone mass, postmenopausal bone loss, 183

Desogestrel, perimenopausal women, menopause, oral contraceptives, plasma lipids, 93

Endometrial thickness, vaginosonography, oestrogens, progestogens, menopause, 77
Endometrium, menopause, oestrogen, progestogen, transdermal oestradiol, bleeding pattern, 115
Endometrium, postmenopausal, estradiol, norgestrel, cholesterol, triglycerides, 207
Endometrium, progesterone, nasal route, nasal spray, histology, 65
Estradiol, hormone replacement therapy, pharmacokinetic, medroxyprogesterone, 229
Estradiol, postmenopausal, norgestrel, cholesterol, triglycerides, endometrium, 207
Estrogen replacement therapy, hydroxylysylpyridinoline, lysylpyridinoline, bone resorption, oophorectomized women, 135
Estrogen replacement treatment, menopause, progestogens, hepatocellular effects, sex hormone binding globulin, insulin-like growth factor I, 21

FSH, menopause, menopausal transition, inhibin, 9
FSH, testoterone, inhibin, LH, aging, 143

Haemostasis, oestrogen replacement, transdermal, coagulation, menopause, 55
Health behaviours, menopause, health care utilisation, treatment seekers, 161
Health care utilisation, menopause, treatment seekers, health behaviours, 161
Hepatocellular effects, menopause, estrogen replacement treatment, progestogens, sex hormone binding globulin, insulin-like growth factor I, 21
Histology, progesterone, nasal route, nasal spray, endometrium, 65
Hormone replacement therapy, pharmacokinetic, estradiol, medroxyprogesterone, 229
Hormone replacement therapy, primary amenorrhea, adolescence, transdermal estrogen therapy, juvenile osteoporosis, lipid metabolism, bone mineral density, 105
Hormone replacement therapy, progesterone, side effects, 87
Hormone replacement therapy, transdermal, norethisterone, 221
Hydroxylysylpyridinoline, lysylpyridinoline,

Elsevier Science Ireland Ltd.
SSDI 0378-5122(94)00833-S

bone resorption, oophorectomized women, estrogen replacement therapy, 135

Inhibin, menopause, menopausal transition, FSH, 9
Inhibin, testoterone, LH, FSH, aging, 143
Insulin-like growth factor I, menopause, estrogen replacement treatment, progestogens, hepatocellular effects, sex hormone binding globulin, 21

Juvenile osteoporosis, primary amenorrhea, hormone replacement therapy, adolescence, transdermal estrogen therapy, lipid metabolism, bone mineral density, 105

LH, testoterone, inhibin, FSH, aging, 143
Lipid metabolism, primary amenorrhea, hormone replacement therapy, adolescence, transdermal estrogen therapy, juvenile osteoporosis, bone mineral density, 105
Lipids, oestrogens, routes, 239
Lysylpyridinoline, hydroxylysylpyridinoline, bone resorption, oophorectomized women, estrogen replacement therapy, 135

Medroxyprogesterone, hormone replacement therapy, pharmacokinetic, estradiol, 229
Menopausal transition, menopause, inhibin, FSH, 9
Menopause, climacteric symptoms, 175
Menopause, endometrial thickness, vaginosonography, oestrogens, progestogens, 77
Menopause, estrogen replacement treatment, progestogens, hepatocellular effects, sex hormone binding globulin, insulin-like growth factor I, 21
Menopause, health care utilisation, treatment seekers, health behaviours, 161
Menopause, menopausal transition, inhibin, FSH, 9
Menopause, oestrogen, progestogen, transdermal oestradiol, endometrium, bleeding pattern, 115
Menopause, oestrogen replacement, transdermal, coagulation, haemostasis, 55
Menopause, perimenopausal women, oral contraceptives, desogestrel, plasma lipids, 93
Menopause, skin, collagen, bone mass, bone absorptiometry, aging, 199
Motor urge incontinence (detrusor instability), oestrogen, oestriol, sensory urgency, 47

Nasal route, progesterone, nasal spray, endometrium, histology, 65
Nasal spray, progesterone, nasal route, endometrium, histology, 65
Norethisterone, transdermal, hormone replacement therapy, 221
Norgestrel, postmenopausal, estradiol, cholesterol, triglycerides, endometrium, 207

Oestriol, oestrogen, sensory urgency, motor urge incontinence (detrusor instability), 47
Oestrogen, menopause, progestogen, transdermal oestradiol, endometrium, bleeding pattern, 115
Oestrogen, oestriol, sensory urgency, motor urge incontinence (detrusor instability), 47
Oestrogens, endometrial thickness, vaginosonography, progestogens, menopause, 77
Oestrogens, routes, lipids, 239
Oestrogen replacement, transdermal, coagulation, haemostasis, menopause, 55
Oligomenorrhea, bone density, osteopenia, premenopause, osteoporosis, 191
Oophorectomized women, hydroxylysylpyridinoline, lysylpyridinoline, bone resorption, estrogen replacement therapy, 135
Oophorectomized women, salmon calcitonin suppository, bone loss, 73
Oral contraceptives, perimenopausal women, menopause, desogestrel, plasma lipids, 93
Osteopenia, bone density, premenopause, oligomenorrhea, osteoporosis, 191
Osteoporosis, bone density, osteopenia, premenopause, oligomenorrhea, 191

Perimenopausal women, menopause, oral contraceptives, desogestrel, plasma lipids, 93
Pharmacokinetic, hormone replacement therapy, estradiol, medroxyprogesterone, 229
Plasma lipids, perimenopausal women, menopause, oral contraceptives, desogestrel, 93
Postmenopausal, estradiol, norgestrel, cholesterol, triglycerides, endometrium, 207
Postmenopausal bone loss, quantified peripheral computed tomodensitometry, bone mass, cortical and trabecular bone, 183
Premenopause, bone density, osteopenia, oligomenorrhea, osteoporosis, 191
Primary amenorrhea, hormone replacement therapy, adolescence, transdermal estrogen therapy, juvenile osteoporosis, lipid metabolism, bone mineral density, 105
Progesterone, nasal route, nasal spray, endometrium, histology, 65
Progesterone, side effects, hormone replacement therapy, 87
Progestogen, menopause, oestrogen, transdermal oestradiol, endometrium, bleeding pattern, 115
Progestogens, endometrial thickness, vaginosonography, oestrogens, menopause, 77
Progestogens, menopause, estrogen replacement

treatment, hepatocellular effects, sex hormone binding globulin, insulin-like growth factor I, 21

Quantified peripheral computed tomodensitometry, bone mass, postmenopausal bone loss, cortical and trabecular bone, 183

Routes, oestrogens, lipids, 239

Salmon calcitonin suppository, bone loss, oophorectomized women, 73
Sensory urgency, oestrogen, oestriol, motor urge incontinence (detrusor instability), 47
Sex hormone binding globulin, menopause, estrogen replacement treatment, progestogens, hepatocellular effects, insulin-like growth factor I, 21
Side effects, progesterone, hormone replacement therapy, 87
Skin, collagen, bone mass, bone absorptiometry, aging, menopause, 199
Symptoms, tibolone, vaginal cytology, 127

Testoterone, inhibin, LH, FSH, aging, 143
Tibolone, vaginal cytology, symptoms, 127
Transdermal, hormone replacement therapy, norethisterone, 221
Transdermal, oestrogen replacement, coagulation, haemostasis, menopause, 55
Transdermal estrogen therapy, primary amenorrhea, hormone replacement therapy, adolescence, juvenile osteoporosis, lipid metabolism, bone mineral density, 105
Transdermal oestradiol, menopause, oestrogen, progestogen, endometrium, bleeding pattern, 115
Treatment seekers, menopause, health care utilisation, health behaviours, 161
Triglycerides, postmenopausal, estradiol, norgestrel, cholesterol, endometrium, 207

Vaginal cytology, tibolone, symptoms, 127
Vaginosonography, endometrial thickness, oestrogens, progestogens, menopause, 77
